## PROFILE

Hello. My name's Tasos. I'm a Front End Web Developer from Greece. I have studied Programming 4 years in a private collage and now I'm studying for my Bachelor's in Computer Science in Goldsmiths, University of London. I love coding because it gives me the opportunity to help others and build something that'll make a difference.

## EDUCATION

### IIEK Delta Computer Programming — 2010 - 2012

In Delta, I worked on the fundamentals of computer programming with lots of different programming languages such as C, C++, C# and Java.

### IIEK Delta Web and Game Development — 2014 - 2016

In the 2nd 2year period, I worked mainly on Web Design and Development as well as Game Development with Unity 3D. I've earned valuable skills working with HTML5, CSS, JavaScript for the web and C# for Unity 3D.

### Goldsmiths, University of London — 2022 - Present

After 4 years studying programming, I decided to take it to the next level and become a computer scientist. That's why I started studying at Goldsmiths. My goal is to gain knowledge in AI, VR and AR.
